Elegant outlook, abrasive resistance PVC insert with acoustic effect. Base made of superior grade 6063 anodized aluminum, top insert made of anti-microbial stain resistance, abrasive resistance, flame retardant, non-toxic soft PVC.

## Corner Guard

Soft vinyl corner guards with high impact strength provide good corner protection on high traffic and high abuse environment also come with choices of colours for matching of wall

**GREAT EFFECTS**  
Safety Handrails

**Striving to become creator of superior**

## Company Introduction

Which was founded in 1995, entered into the market with edging & corner protection profiles in PVC, Aluminium & Stainless, expansion joints, then we expanded business by adding traffic safety products Rubber speed bump, column fenders parking block, Road stud reflecting, cones convex mirror, Rubber sports flooring like Gym mat shuttle court, Basket ball courts mats

2013 our new series of products are Antibiosis Nylon Handrail Series

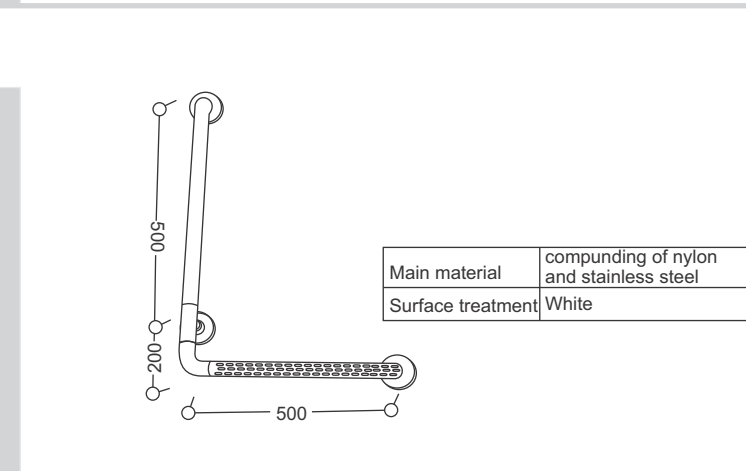

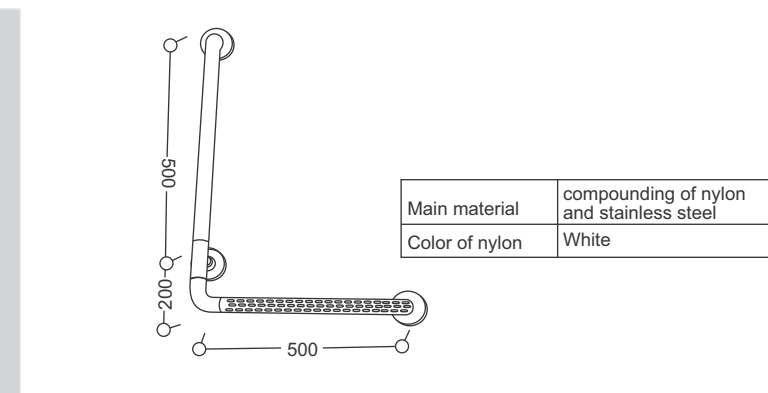

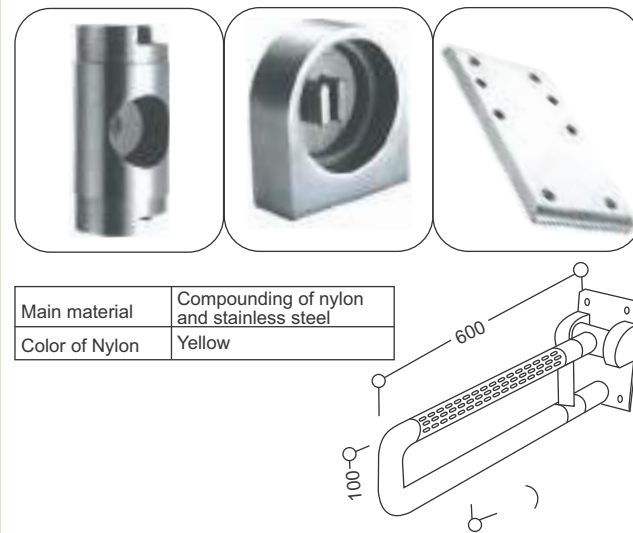

- Stainless Steel Free-obstacle series
- Anti-impact Handrail series
- Wall Guard Series
- Tactile Indicator series
- Stair nosing series
- Corner guard, multi floor connecting profile
- Stainless Steel Floor-draining etc..

Quality oriented and we will take "Meeting great customers" demand as our highest goal. All will be based on our perfect service and powerful technical strength. We sincerely look forward to your co operation and creating a better future

## Antibiosis Nylon Handrail

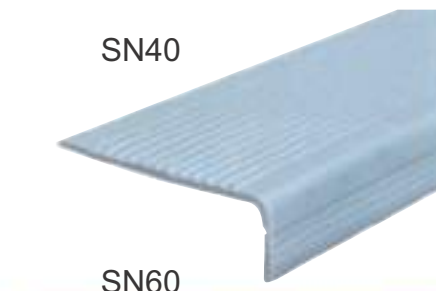

### Characteristics:-

1. Compounding of stainless steel and antibiosis colorized nylon.
2. It's ageing resistance, corrosion resistant and fire-resistant of the nylon material are reached. The Environment Protection standard.
3. Adopted the series of inorganic silver ion antibacterial agent into colorized nylon which can work on escherichia coli, staphylococcus aureus, MRS and more than 600 other microorganism bacterium.
4. The product specification are all in accord with China and International standard in accessibility facilities. They are widely applied to the aged activity center, gymnasiums, therapy Center etc.

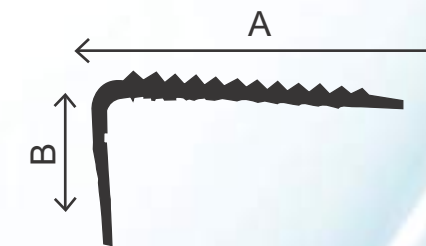

## PVC Stair Nosing

PVC stair nosing provides excellent anti-sliding and acoustic effect, it is available in a variety of specification and colors that means demands of different stair surface designs and overall color scheme of modern architecture. Apply with adhesive.

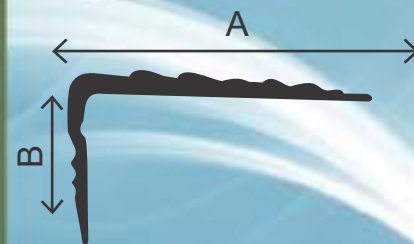

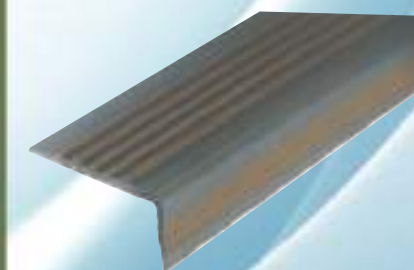

Specification		
Code	A	B
SN40	40	20

Specification		
Code	A	B
SN40	50	25
SN60	60	28
SN60-1	60	40

## Metal End Cap

Specification		
Code	A	B
SN45	45	21
SN55	55	25

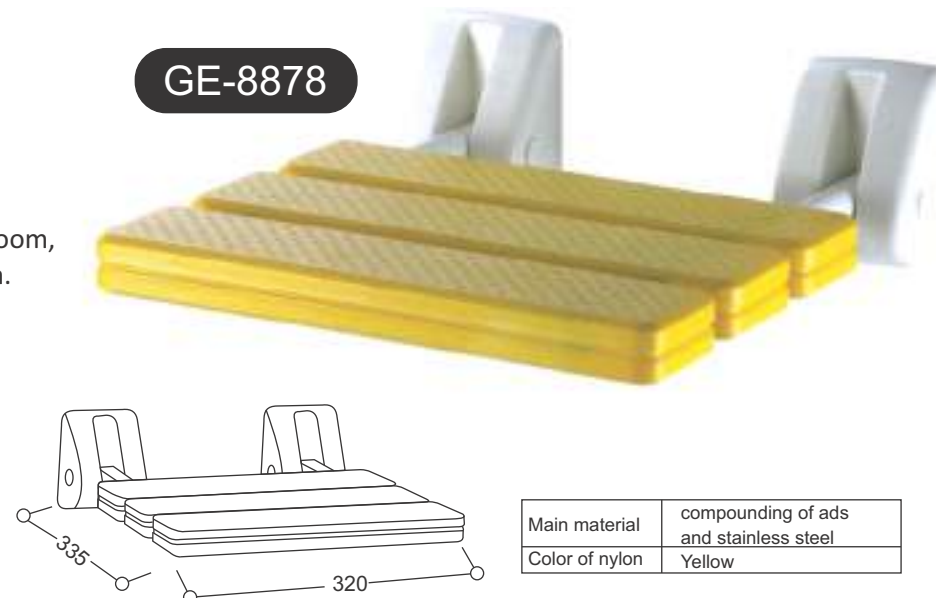

## Antibiosis Nylon Shower Seat

### Performance

- Safe, comfortable, foldable and space saving
- Bright, Smooth and pollution resistibility
- 200 kgs safe loading weight. Easy installation.
- Used in bathroom, clothing room, changing shoes or for relaxation.

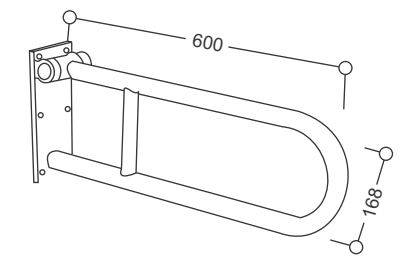

Main material	compounding of ads and stainless steel
Color of nylon	Yellow

## STAINLESS STEEL SAFETY HANDRAIL SERIALS

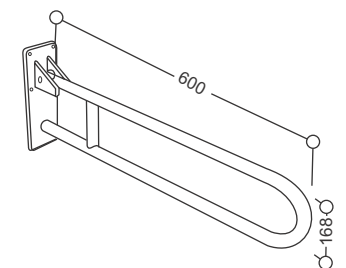

GE-8861

Main material	304 Stainless Steel
Surface treatment	Polish Finished, satin Finished
